How to Get Certified at Scrum.org in 3 easy steps

1. **Do the open assessment of your choice at :**

   https://www.scrum.org/Assessments/Open-Assessments/Scrum-Open-Assessment//

   I recommend until you get 100% 3 times. This is just a guideline. You need to feel

   confident :)

   For Scrum Masters I recommend you do the Scrum Open Assessment

2. **Until you pass - Read the Scrum Guide/**

   Sit this course again till you pass the open assessment. The scrum guide is also attached to this course

   and available at: http://www.scrumguides.org/

3. **When you pass - Pick a Certification** at:

   https://www.scrum.org/Assessments/

   To be an officially certified scrum master you will want to pick the PSM 1

Good luck!

Paul.
