Note: A Flash Update is for a new scrum rule added to the scrum guide that will be incorporated into this course more thoroughly.

Self-Managing over Self-Organizing

Previous Scrum Guides referred to Development Teams as self-organizing, choosing who and how to do work. With more of a focus on the Scrum Team, the latest version emphasizes a self-managing Scrum Team, choosing who, how, and what to work on.

Lean Thinking

As well as Empiricism, Scrum is founded on Lean Thinking. Lean thinking reduces waste and focuses on the essentials. as you will see Scrum removes waste (impediments) and prioritises value (essentials).
